

THE COEUR D' ALENE

HOMESITE # 40

5 BED, 6 BATH, 2768 MAIN FLOOR, 4454 FINISHED SQFT

The Coeur d'Alene has been designed to take advantage of all the beautiful mountain views that Fox Hill has to offer with its front wrap-around porch and rear covered deck. Appointed on 1.66 acres, this home backs to open space. The 5 bed, 6 bath Colorado craftsman-style home has 4454 finished square feet with a garden level basement.

Upon entering the grand entry with double iron doors, a dedicated home office with access to the covered wrap-around porch and standard 1G fiber optic technology is positioned to maximize the views of the Colorado Front Range. The Coeur d'Alene opens to a great room, dining room, and custom kitchen with Thermador appliances, an oversized pantry, and a large island. The master suite is situated on the back of the home to maximize privacy and features a five-piece bathroom and large walk-in closet. The main floor also features a second bedroom with a walk-in closet and its en suite bathroom. The laundry is conveniently placed on the main floor as well near the master suite as the private owner's entrance off the oversized four car garage. The lower level living offers additional living space with a third and fourth bedroom with their own en suite bathrooms and walk-in closets and a spacious rec room with wet bar.

This home is truly stunning inside and out! This custom home community, with sweeping views of the Rocky Mountains and dedicated open space throughout, this is the perfect place to call home!
